

## SPECIFYING DOOR HARDWARE

AIA Presentation & Hands-on Training  
Thursday, May 2, 2024  
5:00pm-8:00pm  
La Quinta Hotel | 1425 E 27th St. Tacoma, WA 98412

## Please join the Allegion AIA learning course and hands-on training! **PMI21014 – Specifying Door Hardware** *1 HSW Continuing Education Hour*

### Course Description:

This course reviews hardware specified for door openings in the order it is specified in a hardware schedule. We will discuss the codes that affect door hardware, and the situational factors that need to be considered when door hardware is specified.

### Hands-on Training Description:

Overtur is the digital environment connecting all building phases in Opening design, construction, and ongoing management. Overtur transforms the opening lifecycle through a common view of the data to make it the easiest part of building management, improving collaboration, coordination, and efficiency. Let us show you how Overtur can simplify the process of openings coordination on your next project. With this hands-on exercise, we'll give you the opportunity to specify door hardware to meet operational functionality and code requirements.

**Course Objectives:** Upon successful completion of this course participants will be able to;

- List codes that influence door hardware and understand how those codes affect hardware choices
- Describe situational factors that need to be considered when specifying door hardware
- Specify the correct door hardware for the application that will also provide ADA compliant access and life safety.
- Increase familiarity with Allegion's platform Overtur Web and understand how to use Overtur to aid in Door Hardware collaboration.
- Know where to find Allegion training/educational resources.

### Allegion RSO Northwest Instructors:

**Chris Ringer**  
Architectural Services  
Manager

**Connor Winters**  
Specification  
Consultant

**William Staggs**  
Integrator Consultant

**Matt Vandenberg**  
End User  
Consultant

**Teni Leist**  
Architectural Services  
Consultant

*Allegion helps keep people safe where they live, work and visit. As a leading provider of security products and solutions for homes and businesses, Allegion specializes in security around the doorway and beyond: everything from residential and commercial locks, door closers and exit devices, steel doors and frames to access control and workforce productivity systems.
