SPEAKERS

Jim Edwards is a third generation Ironworker. He and his family have worked on notable projects up and down the West Coast. In his 40 years he has worked on notable projects like The Columbia Center, UW Husky Stadium twice, buildings all over downtown Seattle as well as placing the largest girders in the state at the time on I-90 at the Sunset Interchange. Jim is the president of Superior Steel & Ironworkers.
Contact: Jim.E@superiorsteel.com

Luke Culver is our preconstruction superintendent. He has been an Ironworker for 20 years and has experience all over the state. His work experience includes Hanford Nuclear Project, Hoover Dam, Gonzaga, WSU, Central & Eastern Universities, and the Northgate Light Rail Station.

Project Manager/Marketing

Patricia Ventura started out as a Landscape Architect. Over the last 30 years she transitioned into Project Management working first for a developer, then multiple construction companies in Seattle. Her experience includes The Salish Lodge redevelopment, The Spa addition to the Salish Lodge, numerous high end residential projects. After a short break in Eastern Washington, she returned to work for Superior Steel & Ironworkers in Business Development and Marketing.
