

*Forensic Architecture and Engineering*

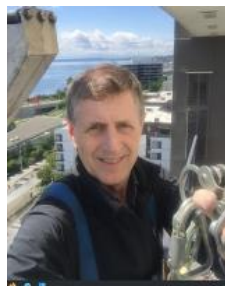

*Influence on Building Design and Construction*

**WHEN** THURSDAY NOVEMBER 2, 2023  
5:30PM-7:30PM

**WHERE** ZOOM

Registered for 1 AIA LU Credit

**Presented by Dave Bates, Associate at OAC Services and MTRC Treasurer**

Forensic Architecture and Engineering: Influence on Building Design and Construction.

- Learn the importance of proper sequencing of materials and assemblies.
- Understand material, their limitations and relationship between dissimilar materials.
- Importance of listening to and soliciting ideas and advice from contractors that have been around and have institutional knowledge.
- Going the extra distance with drawing details for transitions and terminations.

**PROGRAM**

5:30pm-6:00pm: Social/networking

6:00pm-7:00pm: Presentation

7:00pm-7:30pm: Q&A

**Register by end of day 11/1:** [CSI Mt. Rainier \(csimtrainier.org\)](https://csimtrainier.org)

**ZOOM link will be emailed to attendees the morning of November 2<sup>nd</sup>.**
